Information needed for statistics

1. Missions - Total number of times your team was activated for a mission. Include stand bys, turn a rounds as well as completed missions.
2. Mission man-hours - Total number of man-hours spent by the team on missions.
3. Subjects rescued - Total number of subjects that were rescued by your team. Do not include body recoveries.
4. Search missions - Total number of missions where a search was performed by your team.
5. Technical missions - Missions where you had to transport a subject or provide some type of "technical" assistance to get them to a point where they could walk out.
6. Avalanche missions - Total number of missions where an avalanche was the reason for the mission. Crossing an avalanche path enroute to a mission site would not count.
7. Recovery missions - Total number of missions where bodies were recovered.
8. Subjects recovered - Total number of bodies or portions of, that were recovered.
9. Missions outside your primary service area - Typically your county or similar geographic area.
10. Missions where aircraft were used - Rotary and/or fixed wing. Include even if your members were not part of the air operation.
11. Missions where medical aid was performed - You performed some form of treatment. Do not include a patient exam/assessment where no treatment was performed.
12. Public education presentations - Total number of safety education presentations that your team provided to the public.
13. Public educations man-hours - Total number of man-hours that were spent doing public education presentations.
14. Training events - Total number of training events that your team provided to its members.
15. Training man-hours - Total number of man-hours that were spent by your team during training events.
- 16-25. Activity Types - Total number of missions for each activity type.
